

# YERU XU

---

## PROFESSIONAL SUMMARY

I am a student pursuing a master's degree in Computer Science (will graduate in 2023) and seeking a position as a Software Engineer. Strong communication and problem-solving skills. Looking for a position with a highly regarded organisation that values dedication and attention to detail. I was a creative UI & UX designer with over two years of experience. My experience gives me the ability to improve the design, functionality and usability of web-based technologies.

---
